Tiles Care Grouted

Tiles Care Grouted is the material used to fill the spaces between the individual tiles. Grout comes in many colors. While color is important to the final finished look of the tile installation, it has little effect on the functionality of the grout.

Products Features

White Mosaic Adhesive

- Grey Industrial Adhesive
- White Glass Mosaic Adhesive
- Highly polymer modified
- High strength
- Flexible tile adhesive
- For interior and exterior situations
- Non-slip and water-resistance

Wall Putty

- Highly water resistant
- Strong bonding to the base plaster
- Smooth finish
- Excellent workability
- UV Resistance

Tiles Epoxy has become more and more popular among tile contractors and builders. I find new benefits every time I use this product. Unlike cement grout, which is made from a cementitious powder mix, epoxy grout is made from epoxy resins and a filler powder. The grout is extremely durable and almost completely stainproof. Regular grout isn't waterproof, so unlike epoxy grout, it can absorb water when it's wet and stain easily. If you're tired of scrubbing the gunk off your grout, epoxy grout could be your solution.

Water Proofing Liquid
